WORK EXPERIENCE

R/GA, New York, NY – *Technology / Front End Developer Intern* June – August 2015

- Worked with senior developers of the firm on five high priority front-end development projects
- Played a pivotal role in the rapid-prototyping of front end development projects for a *Fortune 50* client utilizing Sass/Compass, CSS3 animations, Backbone, pure JS, and modern naming conventions like BEM
- Developed a critical feature with SVG that increased speed, reduced the page load, and increased efficiency

Safe Auto Insurance Company, Columbus, OH – *Web Development Intern* May – August 2014

- Extended the functionalities of Safe Auto's internal monitoring dashboard web app by building a robust platform to improve its data collection, efficiency and extensibility
- Implemented the monitoring dashboard using a variety of technologies (NServiceBus, AngularJS, SignalR, etc.) to control the gathering and distribution of data

Freelance Web Developer/Designer – *Self-employed* May 2012 – Present

- Designed and developed 13 company, school, and personal websites
- Developed custom websites based on client requirements using a modern front-end development stack with Wordpress as a content management system

PROJECTS

AT&T End-to-End Integration Testing, AT&T / Vanderbilt University August 2015 – Present

- Perform industry analysis on best in class testing performance and value proposition for change
- Investigate tooling that provides a comprehensive testing framework as well as an automation platform

LEADERSHIP / CAMPUS INVOLVEMENT

Alpha Epsilon Pi, Vanderbilt University – *Treasurer* January – December 2014

- Manage a \$100,000 budget per semester, plan chapter formal, and organize events

Vanderbilt Innovation & Entrepreneurship Society - *Board Member* August – December 2014

- Coordinate with other board members on club decisions like organizing meetings, planning events, and securing sponsorship

Vanderbilt Student Volunteer for Science (VSVS) – *Volunteer* Spring 2014

- Taught local Nashville middle school students how to program using the LEGO Mindstorm robot
